### SIXTH WAR LOAN DRIVE STARTS ON NOVEMBER 20

Hancock County's E-Bond quota for the Sixth War Loan drive, November 20 to December 16, is \$113,000, according to A. G. Favre, County War Finance Director, who received notice of the quota from state headquarters.

The quota for the county for all other bonds is \$157,000, making a total of \$270,000.

"We are starting to work right now," the director stated. "We have been assigned our job and I am confident we will chalk up another excellent record, just as we have in past drives."

"Again the sale of E-Bonds will be strongly emphasized with December 7, Pearl Harbor Day, set aside as 'E-Bond Victory' day, the deadline for reaching E-Bond quota. This means that more and more people must be reached early in the campaign since the E-Bond is the individual's bond."

"From now until the drive opens, we will be getting ready to canvass the county, with every community expected to carry its full share of the load. We ask the cooperation of every citizen in achieving our goal."

Meanwhile, county and district leaders have been attending meetings, staged by state headquarters, gathering information and material to use in the campaign. According to reports, greater efforts will be made to allot each community and geographically area its individual quota this time. Also, the payroll savings program is to be expanded.

### NAVY MAIL SERVICE TAKES ADDED STEPS TO SPEED THE MAILS

Making every effort to speed the mails through rapidly to Bluejackets, Marines and Coast Guardsmen on a new ship or at a new overseas station, the Navy Department has inaugurated a change of address system which is compulsory for every Navy man leaving the States.

Previously, there was no system by which an activity was notified that a specific group of men were arriving there. What happened was that if the man didn't inform his correspondents of a changed address, mail addressed to him came to that station, and when there was no record of that man's name there, it would be returned.

Now, every Naval Joe Doe leaving an activity with in the United States will fill out a card for his correspondents, newspapers and publishers giving his new address and notifying his last commanding officer as well as his anticipated commanding officer of the change in address. This new system informs the commanding officer in advance that Joe is coming and to hold his mail; and, by the same token, gives his old station an immediate address to which mail be forwarded. The commanding officer at every ship and station is charged with the responsibility for having the change of address cards filled out completely for each enlisted man or officer being transferred from his ship or station.

When a boy first arrives overseas on a ship his morale is at its lowest ebb. Mail from Mom, Dad, and Mary in the past didn't catch up with him from three weeks to three months after he left the States. But not anymore! By this new method mail will greet him on his arrival overseas, and the letters that just missed him as he left the States will be ready to be delivered at ship's side when he first puts into port. Not only will this be a big boost to morale, but it will eliminate a large part of the directory service—making available additional Navy personnel for dispatching the mails.

The Nurse Corps, whose members serve on hospital ships and at base hospitals in combat zones as well as at shore installations in this country, is scheduled to provide three nurses for every 1,000 men and women in the Naval Services. Timber cut from Southern National Forests last July, August and September totaled 87,245,000 board feet, a 60 per cent gain in volume over the summer quarter average for the three previous years, Joseph C. Kircher, Regional Forester of the U. S. Forest Service, has announced. The stumpage value of the timber cut totaled \$667,362.

Timber cut from forests in 11 Southern States during the three months topped by 22,763,000 board feet the three-year high for the comparable quarter attained in 1943 when 66,518,000 board feet were harvested. The cut for the summer quarter in 1942 reached 44,916,000 board feet. For the same period in 1941 the cut was 48,638,000 board feet.

Nantahala National Forest in North Carolina led the 25 southern forests in volume of timber cut, furnishing 19,095,000 board feet, mostly dead chestnut, extract wood used in the manufacture of leather. The Ouachita National Forest in Arkansas with a sale income of 170,940 was highest in value of timber cut and came second in volume with 11,225,000 board feet, most of which was high grade pine. Louisiana's Kisatchie National Forest, another pine producer, ranked second in value of timber cut with receipts of \$59,237.

Mr. Kircher said all of the timber produced will be utilized for war purposes and emphasized that the stumpage was cut according to conservation practices required by the Forest Service. One-fourth of the timber sales receipts will be turned over to State treasuries to be distributed to counties in the forest area for school funds. An additional 10 per cent will be expended for roads on and near the forests.

### WITH THE GIRL SCOUTS

The Girls Scouts of Troop Two of S. J. A. have held their weekly meetings since the second week of September. At their last meeting officers for the year were elected. Susan Smith was named Scribe and Jane Schay was treasurer.

The Cardinals of Troop Two held their fifth birthday party at the Scout House on Second street. The place was artistically decorated for the occasion, games were played and singing and dancing was enjoyed by all. The campfire, around which were seated all the girls in full uniform, was the object of attraction to all the guests by the party. The Scouts had as their guest of honor, Reverend A. J. Gmelch who has always taken a great interest in scouting. Those present were: Mrs. Victor Lizana, Miss Louise Armstrong, all the Girl Scouts of Troop Two and their leaders Sister Mary Grace and Sister Pauline.

Since Girl Scout Week is a week of weeks full of days of days, the Cardinal Troop began its celebration by attending Mass on "Church Day" October 29th in uniform. After Holy Mass they met at the Scout house and had an outdoor breakfast. It was loads of fun to fry eggs, bacon and ham on a large fire in the center of the yard. Hot chocolate and milk was served with the other food.

On Monday "Homemaking Day" the Girl Scouts celebrated with a Halloween party. On Tuesday "Citizenship Day" they agreed to make a practical resolution of keeping their school yards clean. On Thursday "International Friendship Day" the girl scout patrol will vote for patrol leaders and anticipate "Out of Doors Day" by hiking to Waveland and visit the famous "Pirate House" which is now being occupied by a scout member, Miss Cynthia Kernan. On Friday "Arts and Crafts Day" the girl scouts will make some lovely little jewelry boxes for themselves, their parents and friends.

Girl Scout Week comes but once a year, but it only starts a lot of fun which will last through all the year.

### TEEN-AGE CANTEEN WILL OFFER WHOLESOME RECREATION TO STUDENTS

FOR the first time in the history of Bay St. Louis, a movement has been started to organize a youth center. This will be a place where the teen-age boys and girls of our town can go to relax and have plenty of good clean fun. Dancing, reading, and various games will be available to those who come. Entrance will be by membership only.

So far this movement has had the whole-hearted support of Bay High. However, the real work is ahead. Up to this time we have just elected a committee who has helped to lay out the plans. A location has definitely been decided on, but that is where the labor begins. Everyone will have to enter in and do what is asked whether the task be large or small. Hours of time and energy will be spent before a successful canteen is opened. It is going to take weeks of work and cooperation before our goal is attained.

The benefits of opening a youth center are numerous. This town is not the first to try it. All over the United States places of recreation have been organized to meet the growing needs. Juvenile delinquency has risen sharply all over the nation and a main factor that is causing this terrible situation is the lack of respectable places where young people can find entertainment. It is so much easier to keep out of trouble when pleasure can be obtained in surroundings where there is no liquor, gambling, or any other harmful vice. Naturally we want good times, but we can enjoy wholesome fun much more than the other kind if it is offered. The canteen, indeed, will solve many problems. It will mean that our parents can be sure that we are safe during our leisure hours. We will also have the opportunity to meet and become acquainted with more people.

The success of this organization lies in our hands. Come on students, let's go out and show just how much we can accomplish by working together.—Student Prints, Nov. 1, 1944.

### DELINQUENCY EXAGGERATED

JUVENILE delinquency is a matter of considerable concern to thinking Americans who have been disturbed by frequent reports of a decline in the behavior of young people under the stress of war.

While we presume that there has been some increases in juvenile delinquency, largely due to disturbed conditions and the sudden increase of populations with resulting congestion, we doubt if there has been as great an increase as some people believe.

Consequently, we are glad to report the observation of Judge Anna V. Levy, of New Orleans, who says that court records there show "no increase in juvenile delinquency in New Orleans since the war began."

The Judge reports conversations with judges in other states and says that she is convinced that "the estimated increase of 500 per cent in juvenile delinquency in the United States since the outbreak of war is exaggerated, except in certain thickly-populated centers."

### ABOUT PRISONERS OF WAR

AMERICAN families whose friends or husbands are prisoners of war are warned not to accept enemy broadcasts of prisoner messages as authentic and not to be victimized by unscrupulous persons who attempt to sell information about prisoners of war.

Captain Wilbur Lincoln, Chief of the Record of Identification Division of the Office of the Provost Marshal-General, says that information about prisoners is received from the International Red Cross, but that Government monitors listen to and record every enemy broadcast concerning prisoners. This information is checked against the files in the office and the contents of the message forwarded immediately to the prisoners' kin.

The Captain explains that the Division has other methods of finding missing men. Letters from prisoners are scanned by the Office of Censorship for references to other men and each name mentioned in a letter is checked against official lists. If the name is not found on the list of prisoners, the International Red Cross sends a representative to the prison camp to verify the information which is sent to the family.

Captain Lincoln also revealed that maps are kept showing the location of war prisoner camps in enemy countries and that copies of the maps are sent to American generals in the field. These maps show where the enemy has located prisoner camps and whether the camp is a stone building, a converted barn or some other structure. This helps to avoid hitting our own men on bombing raids.

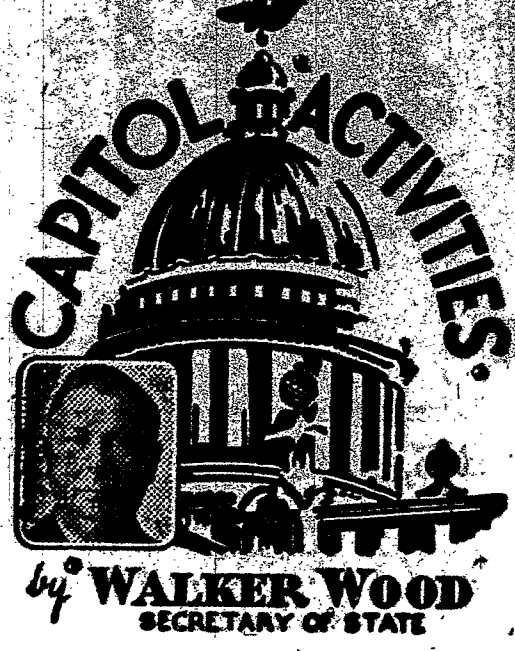

Most of the complaints that we hear come from people who are much better off than you would suspect from their talk.

Germany's desperate resistance will be more costly to Germany than to anybody else. If that is what the Nazis want, let 'em have it.

When the soldiers, sailors and marines come home, after our wars have been won, they will deserve much from the people at home.

In two or three more months the Japanese may be willing to concede that we have a fleet in the air and on the sea, not to mention under the waves.

Farmers work hard and move to the city and city people work hard, hoping some day to move to the country.

**Traffic Deaths**  
Public Safety Council through its official magazine for October announces that in the first eight months of 1944 the United States had 14,430 traffic deaths. In the same period of 1943 the number of deaths was 13,640, approximately 800 less than in 1944. In the eight months of 1944 Mississippi had 190 traffic deaths as compared to 179 in 1943. The number of motor vehicle deaths for the full year of 1943 was 23,400 and that number will probably be reached, if not exceeded, in 1944.

### "GOING MY WAY" IS SCREEN MASTERPIECE AT A. & G. THEATRE SUN-MON-TUESDAY

Picture Presents Bing Crosby in New Type of Role

The screen classic of this season undoubtedly is Paramount's "Going My Way." At least that's the consensus of opinion.

An unsurpassed story, some of Hollywood's finest actors and a top producer-director accounts for the overwhelming success of "Going My Way." The screenplay was written by Frank Butler and Frank Cavett, Producer-Director Leo McCarey supervised the production with remarkable adeptness and the players include Bing Crosby Barry Fitzgerald Frank McHugh, James Brown Jean Heather, Gene Lockhart, Rise Stevens, Porter Hall and Fortunio Bonanova.

It's a picture about priests—three of them—Father "Chuck" O'Malley (Bing), Father "Tim" O'Dowd (McHugh). It's a human interest picture—the pathos and warmth in each scene brings a tear and a laugh. It's a picture of songs—Bing, Rise and the Robert Mitchell boys' choir are heard rendering three new Johnny Burke-Jimmy van Heusen hits, "Going My Way," "The Day After Tomorrow" and "Swinging on a Star" in addition to the immortal "Adeste Fideles," "Silent Night" and "Ave Maria."

Frank McHugh is very much in evidence throughout the picture, too, as Father "Tim" O'Dowd, a genial and kindly priest whose infectious laugh spreads good cheer every moment he's on the screen. Then there's Gene Lockhart, kindly but with a sense of responsibility as the banker; William Frawley, music publisher; Porter Hall, neighborhood crank; and a number of endearing adolescents who continually pose a problem to priests and policemen alike—all play their parts with conviction and sincerity.

The 23rd consecutive year the Federation has held an annual convention. Edward A. O'Neal, of Alabama, the national president, will be present. One of the main speakers will be Senator James O. Eastland who has large farming interests in the Delta. H. H. Clegg, a native of Webster County, new Assistant Director of the Federal Bureau of Investigation, is expected to be present and to deliver an address. Frank W. White, president of a similar federation in the state of Minnesota, will also be on the program. Ransom Aldrich, of Michigan City, is

**How women and girls may get wanted relief from functional periodic pain**

Cardui, many women say, has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes. Try it.

President of the Mississippi Federation.

News reached Jackson last week that Lt. Col. Louis M. Jiggett and Capt. George E. Meadows, both of Jackson, had been cited for meritorious achievement in connection with military operations against the enemy. These brave and noble Mississippians are fighting in the Pacific and rendering fine service to their country just as the thousands of other fine Mississippians are doing on all the fronts of this great war.

Louis Jiggett is a prominent and successful lawyer in Jackson and was Democratic National Committeeman before going to war.

### ORTTE THEATRE SUNDAY AND MONDAY "BATHING BEAUTY"

M-G-M's Technicolor Musical Starring Red Skelton And Esther Williams with Two Outstanding Orchestras.

For sheer entertainment, you'll have to go a long way to top "Bathing Beauty" the brand new Technicolor musical starring Red Skelton with Esther Williams, which Metro-Goldwyn-Mayer presents at the Ortte Theatre, Sunday and Monday.

Here is a film chockful of fun, color, music, beautiful girls and every thing else that adds up to the most delectable kind of movie fare. Skelton, as the only man enrolled in a co-ed college, is at his comical best, and Miss Williams is beautiful and talented and certainly is headed for stardom in her own right.

The production is one of the most handsome to hit town in many a season, and to Jack Cummings must go much of the credit for the tasteful, tuneful picture, which George Sidney has brilliantly directed.

Basil Rathbone deserts his villainous roles to play a Broadway producer and shows his undoubted versatility in his handling of comedy lines and situations. The imposing cast includes also Ethel Smith, the Hit parade organist, who makes her film debut; Carlos Ramirez who sings with the best of the baritones, and Bill Goodwin of radio fame. Top these with Harry James and Xavier Cugat and their bands and you have entertainment par excellence. "Bathing Beauty" shows Technicolor at its luscious best, topped by a water carnival finale you're bound to gasp at with complete astonishment.
